

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	Asian Journal of Research in Zoology
Manuscript Number:	Ms_AJRIZ_50563
Title of the Manuscript:	A Survey of Urinary Schistosomiasis among Secondary School Students in Jalingo Town, Jalingo Local Government Area, Taraba State
Type of Article:	Original Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
<p>-The author(s) effected most of the comments. - My major concern with the article is the ethical consideration. The researchers seems to hide the identity of the schools they carried out the study of which no Ethical Review Board will accept such, it is unethical in responsible research conduct. The study was not presented before any ethical review board probably that is why they research design was faulty.</p>
