

SDI Review Form 1.6

Journal Name:	Journal of Pharmaceutical Research International
Manuscript Number:	Ms_JPRI_50813
Title of the Manuscript:	Pharmacological screening for CNS Depression, analgesic and anti-inflammatory potentials of Sonneratia caseolaris (Linn.) barks in different solvent fraction
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Line 36: "Plant growing", is this the name of an institute or what? I suppose more information is needed here for message clarity.</p> <p>Line 64: Reference this formula</p> <p>Line 127 – 128: Table should be immediately after the heading and the keys placed beneath the table.</p> <p>All scientific names of plants used in your reference section should be written in italics.</p>	
Minor REVISION comments	<p>GRAMMATICAL ERRORS Abstract; Subjected to not subjected for What is the meaning of p.o.? Replace "find out" with "revealed"</p> <p>Line 23: Change to "has been" Line 36; add "air" Line 39: replace "so that to" with "in order to" Line 43: Remove "for" Line 51: Remove anyway start with "The" Line 74: Replace with "as well as" Line 88: What is the meaning of "subplanatar"? Line 198: Change to "have"</p> <p>REPHRASE THE FOLLOWING Line 28 – 31; Suggestion "Based on available literatures, little or no reports have been found on the analgesic, anti-inflammatory and CNS depressant activities of the different fractions of this plant. Therefore, this study is aimed at exploring the analgesic, anti-inflammatory and CNS depressant activities of different fractions based on polarities of <i>Sonneratia caseolaris</i> barks part"</p> <p>Line 43 – 47; Suggestion (since you were discussing about all the extracts) - The extracts were filtered with Whiteman No. 1. filter paper and the recovered filtrates were evaporated in an oven at 50°C. These extracts were weighed in order to determine the yield obtained from the starting material and then stored in an air-tight container for subsequent experimental tests.</p>	
Optional/General comments
